

Build Your Color Palette

Fill in the shades you actually wear. Color each circle, then write its name and hex code.
Aim for 3-4 neutrals, 2-3 main colors, and 1-2 accents: six to nine shades in total.

BASE NEUTRALS · YOUR FOUNDATION (PICK 3-4)

Anchor most outfits: trousers, coats, shoes, bags. Think black, navy, camel, taupe, ivory.

KEEP IT WORKING · THE 60 / 30 / 10 RULE

- Build each outfit from roughly 60% neutrals, 30% main color, 10% accent.
- Every main color should pair with each neutral and at least two accents.
- If a new piece doesn't fit this palette, it's an automatic no.
- Colors stay the same year-round; only fabric weight changes by season.
